

## **THE VISTA VOICE**

### **February 15 – February 20, 2010**

“Should we not be putting all our emphasis on reading, writing and math? The ‘back-to-basics curricula,’ while it has merit, ignores the most urgent void in our present system - absence of self-discipline. The arts, inspiring - indeed requiring - self-discipline, may be more ‘basic’ to our nation survival than traditional credit courses. Presently, we are spending 29 times more on science than on the arts, and the result so far is worldwide intellectual embarrassment.”
